

Ongoing Home Visiting

*Free parenting education and developmental screening
for families with children under age three*

You may be eligible to receive Ongoing Home-Visiting services to support the healthy development of your child. These visits will include developmental screenings, parenting and health care information, and early learning activities. They will also connect you to services in the community.

A service coordinator will visit your home and will create a family plan with you that will look at all areas of your child's growth. If there are concerns about your child's growth, your family will be connected to the help and care you need.

It makes a **big** difference.

"I hope that all parents receive the care that I have felt from the staff of this program. The approach of those involved has been professional and personal, showing a genuine commitment to children."
